Success Stories emerge from the Australian Red Meat Industry

Success stories from the Australian red meat industry are emerging as InformationLeader continues to gain support at processing plants world wide.

InformationLeader streamlines auditing and compliance in an industry renowned for its stringent quality and food safety requirements. In September 2005, the CEO of the Australian Meat Processor Corporation declared InformationLeader as the most successful project ever to run in the meat industry in Australia. InformationLeader has revolutionised the meat industry by reducing paperwork by up to 80%. This has had a tremendous effect on people at all levels of the businesses in the meat industry. Some notable quotes:

"The time that this (InformationLeader) has saved me means that I can spend more time on the floor instead of being stuck in the office." - Neville Hansel Operations Manager Norvic

"Through InformationLeader we've got instant reporting - that means compliance is happy." - Stu Brown, Technical Manager Alliance

"InformationLeader has freed the QA staff to do other things...more likely to make money such as looking at running costs or new markets for product." - Rob Radford, General Manager Radfords

"InformationLeader has cut down our paperwork by 75%. Instead of taking a full day to go through the day's checks we are now only taking half an hour" Alistair Baker QA Manager WAMMCO International
